

# Christine D. Sprunger

W.K. Kellogg Biological Station • Department of Plant, Soil, and Microbial Sciences  
Michigan State University • Hickory Corners, MI  
[sprunge5@msu.edu](mailto:sprunge5@msu.edu) • [www.sprungerlab.com](http://www.sprungerlab.com)

## Education

---

**Ph.D. in Crop and Soil Sciences** Dec. 2015  
**and Ecology, Evolutionary Biology, and Behavior**  
*Michigan State University*

**B.S. in Forest Resources, with Honors** June 2010  
*University of Washington*

**B.A. in Environmental Studies, Minor in Human Rights** June 2010  
*University of Washington*

## Appointments

---

**Assistant Professor of Soil Health** Aug. 2022 - Present  
*Michigan State University*  
*W. K. Kellogg Biological Station*  
*Department of Plant, Soil, and Microbial Sciences*

**Assistant Professor of Soil Science and Rhizosphere Processes** 2018-2022  
*School of Environment and Natural Resources, The Ohio State University*  
*InFACT Discovery Theme*

**Post-doctoral Research Scientist** 2018  
*School of Environment and Natural Resources, The Ohio State University*

**NSF Post-doctoral Fellow in Biology** 2016-2018  
*Agriculture and Food Security Center, Columbia University*

**National Ford Foundation Pre-Doctoral Fellow** 2012-2014  
*Plant, Soil, and Microbial Sciences, Michigan State University*

## Professional Experience

---

**Hazardous Waste Inspector and Compliance Officer** 2008-2010  
Supervisor: Jeff KenKnight  
U.S. Environmental Protection Agency, Region 10; Seattle, WA

- Led hazardous waste inspections and extracted samples for evidence. Prepared penalty calculations for enforcement cases. Wrote inspection reports and enforcement documents. Other responsibilities included producing a strategy report focused on inspection targeting. Served as the Alaska State Coordinator from June 2009-Sept. 2010.

## Publications

---

\*denotes Sprunger lab advisee +denotes student co-author / mentee in collaborative lab

### *Under Review*

**Sprunger, C.D.** and Martin, T.K. *Under Review*. An integrated approach to assessing soil biological health. *Advances in Agronomy*.

+Vázquez-Catoni, A.M., **Sprunger, C.D.**, and Benitez Ponce, M.S. *Under Review*. History of chicken grazing stunts tomato seedling growth and influences associated bacterial endophytes. *Communications in Soil Science and Plant Analysis*.

\*Martin, T.K. and **C.D. Sprunger**. *Under Review*. Nematodes require space: The relationship between nematode community assemblages and soil carbon across varying aggregates sizes. *Geoderma*.

\*Singh, P., Kawa, N., **C.D. Sprunger**. *Under Review*. More questions than answers: Ohio farmers perceptions of novel soil health data and their utility for on-farm management. *Agroecology and Sustainable Food Systems*.

Keiser, A., +Palmer, C., **C.D. Sprunger**. *Under Review*. Changing the narrative: Applying soil ecological principles to restore soil health. *Soil Biology and Biochemistry*.

### *Accepted/In Press*

**Sprunger, C.D.**, A. Lindsey, \*A. Lightcap. *Accepted*. Above and belowground linkages during extreme moisture excess: Leveraging knowledge from natural ecosystems to better understand implications for row-crop agroecosystems. *Journal of Experimental Botany*.

+Leiva Soto, A. Culman, C., Herms, C., **Sprunger, C.**, Doohan, D. *In Press*. Managing soil acidity vs. soil Ca:Mg ratio: what is more important for crop productivity? *Crop, Forage, and Turfgrass Management*.

### *Published*

21. \*Martin, T.K. and **C.D. Sprunger**. 2022. Sensitive measures of soil health reveal carbon stability across a management intensity and plant biodiversity gradient. *Frontiers in Soil Science*. 2:7. <https://doi.org/10.3389/fsoil.2022.917885>

- Invited paper for special issue on Soil Health and Security.

## **Competitive Grants**

---

*Submitted Grant Proposals:*

**Sprunger, C.D.** Exploring the efficacy of prairie strips as a soil health promoting practice. North Central SARE. Pre-proposal submitted: Oct. 11, 2022.

*Funded Grants:*

Haddad, N., B. Basso, S. Evans, A. Kravchenko, D. Landis, J. Lau, G.P. Robertson, **C. Sprunger**, P. Zarnetske. LTER: KBS – Revealing ecological and social mechanisms of

resilience in agroecological systems. NSF LTER. \$7,650,000. Start date: December 15, 2022.

*Active grants:*

**Sprunger, C.D.**, C. Cordova, Y. Lin. 2022-2024. Assessing a suite of indicators to predict soil carbon trajectories in agricultural systems. Environmental Defense Fund. \$298,433. Awarded to Michigan State University in April 2022.

Hathey, J., N. Basta, M. Davies, M. Rodriguez, B. Slater, **C.D. Sprunger.**, B. Wenner, R. Williams. 2021-2025. FUTURE Restoration: Food in Urban Environments-Training Undergraduates for Research and Extension in restoration and agroforestry. USDA Education Workforce Development. \$499,879.

Jackson-Smith, D., M. Chiavegato, S. Culman, S. Lyon, T. Parker, A. Shah, and **C.D. Sprunger.** 2021-2025. Comparing Environmental Tradeoffs and Synergies of Alternative Modes of Integrating Livestock into Cash Grain Cropping Systems. USDA NIFA IDEAS. \$999,408.

Lindsey, A. and **C.D. Sprunger.** 2021-2026. After the Flood: Impacts on Rhizosphere Biology, Nutrient Cycling, and Corn Growth and Yield. USDA AFRI. \$500,000.  
**Subaward to Michigan State University for years 2022-2026.**

Culman, S.W., **Sprunger, C.D.**, M. Sulc, B. Ward, R. Hayden, J. Jungers, M. Ryan, T. Crews, and L. DeHaan. 2019-2023. Organic dual-use perennial grain crops: Pathways to profitability and soil health. USDA OREI. \$1,776,905.

*Completed Grants:*

Lipschitz, F., B. Flemming, S. Inwood, S. Karle, B. Milligan, Z. Plakias, **C.D. Sprunger,** and P. Summerlin. 2019-2020. Identifying opportunities for Landscape Architectural Engagement with Climate Smart Agriculture. InFACT Linkage and Leverage Grant 2019. \$34,613.

Martin, K\*. and **C.D. Sprunger.** 2020-2021. The use of nematodes and enzyme activities for on-farm soil biological health tests. USDA North Central Sustainable Agriculture Research and Education Graduate Student Grant. \$10,875.

**Sprunger, C.D.** 2020-2021. Nematode Quantification in Ohio Soybean Fields. Ohio Soybean Council. \$35,000.

**Sprunger, C.D.**, N.C. Kawa, J.E. Doll, P. Singh. 2020-2021. How can soil health indicators inform farmers' soil conservation practices and climate adaptation strategies? InFACT Linkage and Leverage Grant. \$34,153.

**Sprunger, C.D.** 2019-2021. Rainfall extremes and rhizosphere dynamics: Implications for soil health and crop productivity. OARDC Seeds. \$49,987.

Lindsey, L. E. Hawkins, and **C.D. Sprunger**. 2019-2020. Identifying the cause of soybean self-thinning using Climate FieldView™. Bayer Crop Science. \$68,512.

Baethgaen, W. and **Sprunger, C.D.** 2016. Developing and assessing soil carbon management and restoration recommendations for climate smart agriculture: A pilot study with smallholder farmers in Tanzania. Columbia University, The Earth Institute: Cross-Cutting Initiative. \$30,000.

**Sprunger, C.D.** and G.P. Robertson. 2015. Biodiversity effects on soil carbon gain in annual and perennial cropping systems. USDA Sustainable Agriculture Research and Education Program; 2014-2015. \$6,382.

*Submitted but unsuccessful grant proposals:*

**Sprunger, C.D.**, E. Schultheis. Collaborative Research: Promoting Soil Biodiversity and Ecosystem Function Using Prairie Conservation Corridors. NSF: Partnership to Advance Conservation Science and Practice. \$308,416. Submitted with Western Michigan University and Edward Lowe Foundation. Submitted: Oct. 11, 2022.

Chiavegato, M., N. Bello, S. Lyon, **C. Sprunger**. Effects of grazing and flooding on nitrogen stocks and losses. NC SARE. \$249,984. Submitted March 2022.

**Sprunger, C.D.** Bridging soil biodiversity and soil health through the quantification of nematodes and other dynamic soil properties. Soil Science Collaborative Research. USDA NRCS. \$265,680.35. Submitted April 2022 via Michigan State University.

V. Roman-Ryna, J. Jacobs, **C.D. Sprunger**. USDA AFRI. Assessing the impact of carbon availability on soil food webs in rice ecosystems for enhanced crop productivity and ecological function. \$849,726.

**Sprunger, C.D.** Linking farmer management decisions to soil health outcomes. FFAR New Innovator Award. \$448,943.33.

**Sprunger, C.D.** Advancing plant production and diversifying STEM through dedicated training and mentorship. USDA NIFA National Needs Fellowship Program. \$79,500.

Jackson-Smith, D., Culman, S.W., Dooah, D., Kumarappan, S., **Sprunger, C.D.** Improving the Value of Scientific Research on Organic Systems: Incorporating Soil Balancing into Soil Health Management through Tiered Collaborative Research. USDA OREI. \$1,499,935.

Mercer, K., **C.D. Sprunger**, R. Dick, H. Perales, and V. Bernau. Dissecting the impacts of genetic and environmental variation on nitrogen fixation in maize. USDA AFRI. \$498,955

**Sprunger, C.D.** Linking farmer management decisions to soil health outcomes. FFAR New Innovator Award. \$445,260.

**Sprunger, C.D.** and S.W. Culman. Uncovering the hidden half of cover crops: Linking belowground processes to soil health and agronomic performance. USDA AFRI. \$499,916

Culman, S.W. **C.D. Sprunger**, A. Hodson. Development of rapid nematode indicators to reflect soil food web functions. USDA AFRI. \$494,667.

Jackson-Smith, D., M. Chiavegato, S. Culman, S. Lyon, T. Parker, A. Shah, **C.D. Sprunger**, and H. Wang. 2019. Comparing Environmental Tradeoffs and Synergies of Alternative Modes of Integrating Livestock into Cash Grain Cropping Systems. USDA NIFA IDEAS. \$1,000,000.

Lindsey, A. and **C.D. Sprunger**. 2019. After the Flood: Impacts on Rhizosphere Biology, Nutrient Cycling, and Corn Growth and Yield. USDA AFRI. \$494,667.

Singh, P., N.C. Kawa, **C.D. Sprunger**. 2020. An integrated approach to assessing the impacts of extreme precipitation on soil health and farmer decision-making in Ohio. USDA North Central Sustainable Agriculture Research and Education Graduate Student Grant. \$9,930.

Chen, C., Lyon, S., Demyan, S., **Sprunger, C.D.** 2020. Wireless In-Situ Soil Sensing System Development. National Science Foundation. \$939,401.

Tomich, T.P., Scow, K., Hoy, C., Geisseler, D., Ullmann, K., Huber, P., Lipschitz, F., Culman, S.W., **Sprunger, C.D.**, and Jackson-Smith, D. 2018. Tipping the scales towards a sustainable food system connecting soil health practices from microbiomes to working landscapes. USDA SAS. \$9,997,893.

## **Invited Seminars, Extension Workshops, and Media**

---

**Sprunger, C.D.** 2022. Linking soil food web structure and function to soil health in agroecosystems. Special Session: The Microbiome of Soil Health. ASA-CSA-SSSA International Annual Meetings. Baltimore. November 2022. Invited Oral Presentation.

**Sprunger, C.D.** 2022. Enhancing soil health: Opportunities for climate mitigation and adaptation in agroecosystems. North Central Climate Collaborative Webinar Series. Invited Speaker.

**Sprunger, C.D.** 2022. The integration of nematode communities into the soil health framework. Department of Biological Sciences Seminar Series. Western Michigan University. Invited Speaker.

**Sprunger, C.D.** 2022. Soil carbon sequestration as a climate solution: Is there a market? Carbon Market Working Group. LTER All Scientist Meeting. Pacific Grove, CA. Invited Speaker.

**Sprunger, C.D.** 2022. Advancing soil health assessments for enhanced agronomic performance and ecological function. Pacific Northwest Laboratory. Environmental, Molecular Sciences Laboratory (EMSL) Exchange. Invited Speaker.

**Sprunger, C.D.** 2022. Lessons from the Rhizosphere: Opportunities for Climate Mitigation and Adaptation in Agroecosystems. University of Missouri Interdisciplinary Plant Group Symposium. Invited Speaker.

**Sprunger, C.D.** 2022. Advancing soil health assessments for enhanced agronomic performance and ecological function. Department of Geography. University of Wisconsin. Invited Speaker for the Yi-Fu Lecture Series.

**Sprunger, C.D.** 2022. Advancing soil health assessments for enhanced agronomic performance and ecological function. Department of Soil, Water, and Climate. University of Minnesota. Invited Speaker.

**Sprunger, C.D.** 2022. Rhizosphere dynamics drive soil health and plant performance in agroecosystems. Soil and Water Sciences Department. University of Florida. Diversity, Equity, & Inclusion Committee Invited Seminar Speaker.

**Sprunger, C.D.** 2022. Soil Biology Scientific Round Table Discussion. Washington State University Soils Conference 2022. Invited Panelist.

<https://www.youtube.com/watch?v=snVGOXSZAno&list=PLBU9aYUI-eYLLBBu-BxbTNMIYJvXlunh&index=8>

**Sprunger, C.D.** 2021. Advancing soil health assessments for enhanced agronomic performance and ecological function. Kellogg Biological Station and The Department of Plant, Soil, and Microbial Sciences. Michigan State University. Invited Speaker.

**Sprunger, C.D.** 2021. Rhizosphere dynamics drive soil health and plant performance in agroecosystems. Department of Plant Pathology. The Ohio State University. Invited Speaker.

**Sprunger, C.D.** 2021. Carbon Markets. Ask the Expert Panelist. Farm Science Review. The Ohio State University. Invited Panelist.

**Sprunger, C.D.** 2021. Soil Carbon Pools and their connection to soil health. Soil Health Nexus Conference. Michigan State University. Invited Speaker.

**Sprunger, C.D.** 2021. Encourage development of root stocks that increase carbon capture and can support grain crop cover. Agricultural Genome to Phenome Initiative. USDA funded virtual conference. Invited Speaker.

**Sprunger, C.D.** 2021. How do rhizosphere dynamics drive soil health in agroecosystems? Kellogg Biological Station Seminar Series, Michigan State University. Invited Seminar Speaker.

**Sprunger, C.D.** 2021. How do rhizosphere dynamics drive soil health in agroecosystems? Department of Environmental Science, Policy, and Management, University of California, Berkeley. Spring Seminar Series. Invited Seminar Speaker.

**Sprunger, C.D.** 2021. Which management practices most influence soil health in organic corn production? The Ohio State University Organic Webinar Series. Virtual Oral Presentation.

**Sprunger, C.D.** and T. Martin. 2020. Drivers of rhizosphere dynamics and soil biological health in agroecosystems. ASA-CSSA-SSSA International Meetings. Invited oral talk (Virtual).

**Sprunger, C.D.** 2020. How do rhizosphere dynamics drive soil health in agroecosystems? Department of Plant Science Fall Seminar Series, Penn State University. Invited Seminar Speaker.

**Sprunger, C.D.** 2020. Can nematodes serve as effective soil health indicators? Washington State University Soil Health Seminar. Oral Presentation.

**Sprunger, C.D.** 2020. The role that roots play in building soil organic matter and soil health. Association for Ohio Pedologists. February 27, 2020.

**Sprunger, C.D.** 2020. The role that roots play in building soil organic matter and soil health. Conservation Tillage Conference. March 4, 2020.

**Sprunger, C.D.** 2019. How do soils provide important ecosystem services? Invited Speaker. Environmental Professionals Network. Columbus, Ohio. December 4, 2019.

**Sprunger, C.D.** 2019. Perenniality or Diversity: Which is most effective at providing ecosystem services within agro-ecosystems? Ames, IA. Invited Speaker. Department of Agronomy seminar series, Iowa State University.

**Sprunger, C.D.** 2019. Embracing Difficult Conversations: The necessary path to diversifying soil science. Amherst, MA. Bridge Scholar /Invited Speaker. Stockbridge School of Agriculture Seminar Series: Bridge2Impacts, University of Massachusetts.

**Sprunger, C.D.** 2019. Perenniality or Diversity: Which is most effective at providing ecosystem services within agro-ecosystems? Amherst, MA. Bridge Scholar /Invited Speaker. Stockbridge School of Agriculture Seminar Series: Bridge2Science, University of Massachusetts.

**Sprunger, C.D.** 2019. Perenniality or Diversity: Which is most effective at providing ecosystem services within agro-ecosystems? Columbus, OH. Invited Speaker. Department of Horticulture and Crop Seminar Series, The Ohio State University.

**Sprunger, C.D.** 2019. What management practices most influence soil health in corn production? Conservation Tillage and Technology Conference. Ada, OH. Invited Speaker.

**Sprunger, C.D.** 2019. Sustainable Agriculture: Can we increase crop productivity while reducing agriculture's environmental footprint? Department of Biology Seminar Series, College of Wooster. Wooster, OH. Invited Seminar Speaker.

**Sprunger, C.D.** and S. W. Culman. 2019. On-farm evaluation of crop diversity effects on soil health and ecosystem function in the Great Lakes Region. Special Session. Soil Science Society of America International Annual Meetings. San Diego, CA. Invited Oral Presentation.

**Sprunger, C.D.** 2018. Root production and soil carbon dynamics in agroecosystems. Microbial Based Solutions for Agriculture. The Ohio State University. Wooster, OH. Invited Oral Presentation.

**Sprunger, C.D.** 2018. Root production and soil carbon dynamics in agroecosystems: A biogeochemical and social science approach. School of the Environment and Natural Resources, The Ohio State University. Invited Oral Presentation.

**Sprunger, C.D.** 2017. Managing soil carbon: Implications for enhanced crop productivity, long-term soil health, and climate change mitigation. Department of Biology Seminar Series, East Carolina University. Invited Seminar Speaker.

**Sprunger, C.D.** 2017. Diversity and Inclusion in STEM. Department of Biology, East Carolina University. Greenville, North Carolina. Invited Oral Presentation.

**Sprunger, C.D.** 2017. Soildoc Maproom Climate Tool Application. USAID funded workshop. Morogoro, Tanzania. Extension Talk: Invited Oral.

**Sprunger, C.D.** 2016. The importance of Active Soil C. Prairie Public: Main Street Radio. Radio Show Interview. Friday, July 22, 2016.  
<http://www.prairiepublic.org/radio/mainstreet>

O'Neill, B.E. and **C.D. Sprunger**. 2015. Results of soil health tests on Michigan farms. Farming for the Future Conference. Paw Paw, MI. Extension Talk: Oral.

**Sprunger, C.D.**, S.S. Snapp, and S.W. Culman. 2013. Management impacts on belowground carbon dynamics: annual versus perennial cropping systems. Special Session on Managing Belowground Processes in Agroecosystems. Ecological Society of America Annual Meeting, Minneapolis, MN. Oral Presentation.

**Sprunger, C.D.** and B. Gottshall. 2012. Perennialization in Urban and Rural Landscapes to Enhance Ecosystem Services. LTER All Scientist Meeting. Estes Park, CO. Oral Presentation/Workshop Moderator.

## **Presentations**

---

+Wanderson, N. **C.D. Sprunger**, L.E. Lindsey, S. Khanal, O. Ortez, M. Mann\*, and A.J. Lindsey. Assessing various N sources and water excess on corn growth and grain yield. ASA-CSA-SSSA International Annual Meetings. November 2022. Oral Presentation.

+Wanderson, N. **C.D. Sprunger**, L.E. Lindsey, S. Khanal, O. Ortez, M. Mann\*, and A.J. Lindsey. Elucidating how N management practices and excess water conditions affect corn N uptake and grain yield. ASA-CSA-SSSA International Annual Meetings. November 2022. Poster Presentation.

Martin, T. and **C.D. Sprunger**. Thirty-years of long-term management shifts nematode community composition across a suite of cropping systems. ASA-CSA-SSSA International Annual Meetings. November 2022. Oral Presentation.

Martin, T. and **C.D. Sprunger**. Assessment of soil food webs across time: How do nematodes infer shifts in community structure over 30 years under varying agroecosystems? Ecological Society of America. August 2022. Oral Presentation.

**Sprunger, C.D.** and Martin, T. 2020. Exploring the relationship between key soil health indicators and nematode community composition in agroecosystems. American Geophysical Union Annual Meetings (virtual). Poster Presentation.

Hoekstra, N.C. **C.D. Sprunger**, N.T. Basta, M.M Gardiner, and S.W. Culman. 2019. The impact of Vegetation Management Strategies on Soil Health in Urban Vacant Lots. Soil Science Society of America International Annual Meeting. San Diego, CA.

Wade, J., S.W. Culman, T.T. Hurisso, and **C.D. Sprunger**. 2019. Benefits and Limitations of Soil Carbon, Nitrogen and Biological Measures of Soil Health. Soil Science Society of America International Annual Meeting. San Diego, CA.

**Sprunger, C.D.**, S.W. Culman, C.A. Palm, B. Vanlauwe. (2017). Integrated soil fertility management has altering effects on soil health and crop productivity across sites in Kenya. Soil Science Society of America Meeting. Tampa, Florida. Oral Presentation.

**Sprunger, C.D.**, and G.P. Robertson. (2015). Differences in active, slow, and resistant soil carbon fractions under annual and perennial biofuel crops. Long Term Ecological Science All Scientists Meeting. Estes Park, Colorado. Poster Presentation.

**Sprunger, C.D.**, G.P. Robertson, R.D. Jackson, and L.G. Oates. 2015. Differences in fine root production and C allocation among perennial cropping systems in contrasting soils of the upper Midwest. Ecological Society of America Annual Meetings. Baltimore, Maryland. Oral Presentation.

**Sprunger, C.D.**, and G.P. Robertson. 2014. Differences in active and slow soil carbon fractions under annual and perennial biofuel crops. Soil Science Society of America Meeting. Long Beach, CA. Poster Presentation.

**Sprunger, C.D.,** S.S. Snapp, and S.W. Culman. 2013. Root production an indicator for belowground nitrogen use efficiency in perennial and annual grain cropping systems. Soil Science Society of America Meeting. Tampa, FL. Oral Presentation.

**Sprunger, C.D.,** S.S. Snapp, and S.W. Culman. 2013. Implications for carbon sequestration: Management effects on annual and perennial root production. Michigan Organic Reporting Session, East Lansing, MI. Poster Presentation.

**Sprunger, C.D.,** S.S. Snapp, and S.W. Culman. 2013. Implications for carbon sequestration: Management effects on annual and perennial root production. LTER Kellogg Biological Station All Scientist Meeting, East Lansing, MI. Poster Presentation.

**Sprunger, C.D.,** S.S. Snapp, and S.W. Culman. 2012. Implications for carbon sequestration: Management effects on annual and perennial root production. Soil Science Society of America Meeting, Cincinnati, OH. Poster Presentation.

**Sprunger, C.D.,** S.S. Snapp, and S.W. Culman. 2012. Annual vs. perennial roots: Implications for carbon sequestration in agriculture. Ford Foundation Fellowship Conference, Newport Beach, CA. Poster Presentation.

**Sprunger, C.D.,** S.S. Snapp, and S.W. Culman. 2012. Conventional and Organic Management Effects on Annual and Perennial Root Biomass. Michigan Organic Reporting Session, East Lansing, MI. Poster Presentation.

**Sprunger, C.D.** and D. Zabowski. 2011. Organic farming and its effect on soil carbon content. Michigan Organic Reporting Session, East Lansing, MI. Poster Presentation.

**Sprunger, C.D.** and D. Zabowski. 2009. Organic farming and its effect on soil carbon content. Program on the Environment Symposium, University of Washington, Seattle. Oral Presentation.

**Sprunger, C.D.** and D. Zabowski. 2009. Organic farming and its effect on soil carbon content. Soil Science Society of America Meeting, Pittsburgh. Poster Presentation.

## **Fellowships, Honors, and Awards**

---

Agricultural and Environmental Letters Outstanding Paper of the Year Award	2022
National Science Foundation Post-Doctoral Fellowship in Biology, \$138,000	2016,2017
ASA, CSSA, SSSA Graduate Student Leadership Award	2014
Kellogg Biological Station Graduate Research Fellowship, \$1000	2014
ASA, CSSA, SSSA Future Leaders in Science Award, Washington D.C.	2014
National Ford Foundation Fellowship, \$66,000	2012-2014

Michigan State University Enrichment Fellowship, \$48,000	2010, 2015
Soil Science Society of America Meeting, Cincinnati, OH, Student Poster Award	2012
Michigan Organic Reporting Session, Graduate Student Poster Award	2013
National Science Foundation Graduate Research Fellowship, Honorable mention	2012
Kellogg Biological Station, Summer Student Fellowship, \$1000	2011
Michigan Organic Reporting Session, Graduate Student Poster Award	2011
Undergraduate Travel Award, Forest Resources, University of Washington, \$400	2009

## **Teaching, Advising, and Mentoring**

---

### Teaching

**Instructor**, The Ohio State University, *Root and Rhizosphere Ecology* 2019-2022

**Instructor**, The Ohio State University, *Advanced Principles in Enviro Sci* 2021-2022

**Co-Instructor**, The Ohio State University, ENR 8890.04 2020-2022

### Graduate Student Chair

**Current:** Tvisha Martin (PhD, ENR)

**Completed:** Tvisha Martin (MS, ENR), Prabhjot Singh (MS, ESGP)

### Graduate Student Committee Member (8 total)

**Current MS Students:** MK Klenkar (SENR), Chee Gang Ngui (HCS)

**Completed:** Ashly Dyck (SENR), Christine Charles (SENR), Francis Clark (HCS), Ana Vazquez (Plant Pathology), Jenna Moore (HCS)

**Current PhD students:** Prabhjot Singh (OSU, SENR)

**Completed:** Andrea Leiva Soto (OSU, HCS) and Sean Fenstemaker (OSU, HCS);

### Post-Bachelor Technicians

- Nicole Hoekstra
- Meredith Mann
- Louceline Fleuridor

### Undergraduate Research Assistants and Undergraduate Research Distinction

- Dani Alabyadh (Fall 2020-Present)
- Jacob Murray (Spring 2021-Present)

- Christian Mamana (NSF REU 2021)
- Abby Rees (NSF REU 2022)

*Guest Speaker* Fall 2022

- Perenniality in agroecosystems
- Foundations in Agriculture and the Environment, Yale University

*Guest Speaker* Spring 2021

- Assessing soil health on farmer field
- ESPM 290, Science of Healthy Soils University of California, Berkeley

*Guest Lecture* Fall 2019

- The Rhizosphere: Important for Food production and the Environ.
- ENR 3000, The Ohio State University

*Guest Lecture* Summer 2019

- The Rhizosphere: Important for Food production and the Environ.
- ENR 3000, The Ohio State University

*Guest Lecture* Summer 2019

- How to identify a research question?
- Summer Research Opportunities Program, OARDC

*Guest Instructor* Spring 2019

- Soil Science Graduate Seminar
- Organized Inaugural OSU Soil Science Symposium

*Invited Guest Lecture* November 2018

- Crop rotations, diversity, and perenniality impacts on nutrient cycling
- SENR Soil Fertility Course. Wooster, OH.

*Invited Guest Lecture* November 2018

- Sustainable management practices for enhanced yields and ecosystem services
- ATI Soil fertility Course. Wooster, OH.

*Invited Guest Lecture* November 2017

- Sustainable management practices for enhanced yields and ecosystem services
- SENR Soil Fertility Course. Columbus, OH.

*Mentor to Alessandra Zuniga* Summer 2014

- Research Experience for Undergraduates Program at the Kellogg Biological Station.
- Completed M.S. in Biology from Northern Arizona University (2017)

*Mentor to Lazarius Miller* Summer 2014

- Undergraduate Research Apprentice Program at the Kellogg Biological Station

*Mentor and Supervisor* to Marie-Flore Doyen Summer 2013

- Undergraduate Exchange Program between the Kellogg Biological Station and Purpan University
- Completed Masters of Agriculture from Purpan University (2016)

*Mentor and Tutor* to twenty Sexton high school students 2011-2012

- College Ambition Program at Sexton High School, Lansing MI.

## **Service**

---

### **USDA NIFA**

- Peer Review Panel Member
- Agricultural Microbiomes in Plant Systems and Natural Resources
- December 2022 – January 2023

### **Michigan State University**

- Agronomy Committee
- November 2022- Present

### **Michigan State University**

- Regenerative Agriculture Extension Educator Search Committee Member
- October 2022- Present

### **Michigan State University**

- Long-Term Agroecosystems Research (LTAR) Steering Committee
- August 2022-Present

### **Michigan State University**

- KBS Cultural & Inclusion Committee
- August 2022-Present

### **Soil Science Society of America Science Outstanding Dissertation Committee**

- January 2020-Present

### **Agronomy, Crops, and Soils Diversity Society Committee**

- January 2020-Present

### **Soil Science Society of America Science Policy Committee**

- January 2020- December 31, 2022

### **The Ohio State University**

- SENR Fellowship Committee

- Spring 2021-2022

**The Ohio State University/OARDC**

- ORIP Committee
- January 2020-2022

**The Ohio State University**

- SENR Academic Affairs Committee
- Fall 2019-2022

**The Ohio State University**

- InFACT Strategy, Research and Grant Opportunities
- Fall 2019

**The Ohio State University**

- Alpha Zeta Partners
- Spring 2019

**The Ohio State University**

- MENR Learning Objectives Ad Hoc Committee
- Spring 2019

**The Ohio State University**

- SENR Hydrology Position Search Committee
- Fall 2018-Spring 2019

**The Ohio State University**

- SENR Soil Science Curriculum Re-vamp
- Weekly meetings, Fall 2018; Spring 2019; Fall 2019

**The Ohio State University**

- InFact Discovery Theme Strategic Planning Retreat, Initiative for Food and AgriCultural Transformations, September 6, 2018

**Peer Reviewer:** PNAS, Biogeochemistry, Agriculture, Ecosystems, and the Environment, Plant and Soil, Soil Science Society of America, Geoderma, Agronomy Journal, Applied Ecology, Applied Soil Ecology, Nutrient Cycling in Agroecosystems, Global Change Biology, Journal of Animal Ecology

**Mentor,** The Fairy God-Sister mentoring program  
New York City 2017-2018

**Tour Guide,** Long Term Ecological Research Site  
Kellogg Biological Station, Michigan State University 2014-2015

**Communicating Science Volunteer,** Science Festival  
Michigan State University April 2014

<b>Graduate Student Representative</b> , Seminar Committee Kellogg Biological Station, Michigan State University	2014-2015
<b>Graduate Student Representative</b> , Academic Programs Committee, Kellogg Biological Station, Michigan State University	2013-2014
<b>Communicating Science Volunteer</b> , Share the harvest, Kellogg Biological Station, Michigan State University	Oct. 2013
<b>Graduate Student Representative</b> , Graduate Program Committee, Department of Plant, Soil, and Microbial Sciences, Michigan State University	2011-2013
<b>Secretary</b> , Crop and Soil Science Graduate Student Organization. Department of Plant, Soil, and Microbial Sciences, Michigan State University	2010-2013
<b>Co-Chair</b> , Professional Development Committee, Graduate Women in Science Association, Michigan State University Chapter	2011-2012

## **Professional Development Training**

Teaching Assistant Seminar and Orientation, Michigan State University	2013
Science policy, Communication, and Advocacy training, ASA, CSSA,SSSA	2014
Mentoring workshop, W.K. Kellogg Biological Station	2013
Stable Isotope Biogeochemistry intensive course, Michigan State University	2012
Cropping System Modeling Course (SALUS), Michigan State University	2011
40-hour Hazardous Waste Training, Environmental Protection Agency	2009
Resources Conservation and Recovery Act three-day training, McCoy Associates	2008

## **Professional Memberships**

Ecological Society of America, Soil Science Society of America, Crop and Soil Science Society of America, and Agronomy Society of America, Association for Women Soil Scientists, Graduate Women in Science, Xi Sigma Pi Honor Society.

## **Outreach, Public Engagement, Diversity and Inclusion**

**Sprunger, C.D.** 2022. The simple act of welcoming. Planting seeds and storytelling (DEIJ) Working Group. LTER All Scientists Meeting. Pacific Grove, CA. September, 2022.

Scientia Feature: Tackling Soil Health from Every Angle. March 2022  
<https://doi.org/10.33548/SCIENTIA803>

Generated soil health test results for 22 farmers across Ohio. Fall 2020.

Judge for Agronomy, Crops, and Soils Student Diversity Poster Competition. ASA-CSA-SSSA. Virtual Annual Meetings. November 2020.

Leaders of Color Career Panel: Young Professionals in the Environmental Space. River Network. October 7, 2020.

European Geosciences Union. Black in Soil Science Feature. Blog Post. 2020.  
<https://blogs.egu.eu/divisions/sss/2020/07/06/black-in-soil-science/>

Soil health in the No-till trial presentation to legislative staffers. CFAES. August 23, 2019.

Designed hands on soil science activities for 5<sup>th</sup> and 6<sup>th</sup> grade students as part of the Expanding Your Horizons Girl's Science Day. College of Wooster. April 6<sup>th</sup>, 2019.

Lin, E., **C.D. Sprunger**, N. T. Basta. Report on Heavy Metal Contamination from UXO and Landmine Areas in Cambodia. Cambodian government. April 2019.

**Sprunger, C.D.** 2019. Feature Interview. Women in Ag Science Organization. April 2, 2019. <https://www.womeninagscience.org/post/christine-sprunger-soil-science-assistant-professor>.

Soil health testing for organic corn growers across Michigan, Indiana, Ohio, and Pennsylvania. Fall 2018 and Spring 2019.

Generated soil health test results for 200+ farmers across the Great Lakes Region. Fall and Spring 2018 and Spring 2019.
