

## Christine D. Sprunger

W.K. Kellogg Biological Station • Department of Plant, Soil, and Microbial Sciences  
Michigan State University • Hickory Corners, MI  
[sprunge5@msu.edu](mailto:sprunge5@msu.edu) • [www.sprungerlab.com](http://www.sprungerlab.com)

### Education

---

<b>Ph.D. in Crop and Soil Sciences and Ecology, Evolutionary Biology, and Behavior</b> <i>Michigan State University</i>	2015
<b>B.S. in Forest Resources, with Honors</b> <i>University of Washington</i>	2010
<b>B.A. in Environmental Studies, Minor in Human Rights</b> <i>University of Washington</i>	2010

### Awards

---

World Food Prize Foundation - Top Agri-food Pioneer	2025
KBS LTAR Researcher of the Year Award	2025
Ecological Society of America Early Career Fellow	2024-2028
Agricultural and Environmental Letters Outstanding Paper of the Year	2022

### Appointments

---

<b>Associate Professor of Soil Health</b> <i>W.K. Kellogg Biological Station Department of Plant, Soil, and Microbial Sciences Plant Resilience Institute Ecology and Evolutionary Biology Michigan State University</i>	2024 – Present
<b>Interim Associate Director</b> <i>W.K. Kellogg Biological Station Michigan State University</i>	2024 – 2025
<b>Assistant Professor of Soil Health</b> <i>Michigan State University W. K. Kellogg Biological Station Department of Plant, Soil, and Microbial Sciences</i>	2022 – 2024
<b>Assistant Professor of Soil Science and Rhizosphere Processes</b> <i>The Ohio State University School of Environment and Natural Resources</i>	2018 – 2022

**Post-doctoral Research Scientist** 2018  
*The Ohio State University*  
*School of Environment and Natural Resources*

**NSF Post-doctoral Fellow in Biology** 2016 – 2018  
*Columbia University*  
*Agriculture and Food Security Center*

**National Ford Foundation Pre-Doctoral Fellow** 2012 – 2014  
*Michigan State University*  
*Department of Plant, Soil, and Microbial Sciences*

## **Publications**

---

\*denotes Springer lab advisee +denotes student co-author/mentee in collaborative lab

### *Under Review*

\*Naasko, K. de Camargo Santos, A. **Sprunger, C.D.**, Deiss, L. Tradeoffs between soil organic carbon surface gains and subsurface losses following 60 years of contrasting tillage and crop rotations. *Geoderma*.

\*Nelson, R. **Sprunger, C.D.**, Evans, S., Klausmeier, C, Haddad, N.M. Integrating spatial ecology into mutualisms. *Ecology Letters*.

\*Naasko, K., \*Martin, T.K.,\* Zakolski, E., \*Mann, M., Malacrino, A., +Wanderson, N., Lindsey, A., **Sprunger, C.D.** *Under Review*. The impact of Short-Term Flooding on Soil Microbial Communities, Soil Nitrogen, and Agroecosystem Productivity. *Annals of Applied Biology*.

\*Martin, T.K. and **Sprunger, C.D.** *Under Review*. Long-term maintenance of regenerative agriculture enhances soil food webs and drives carbon accumulation. *European Journal of Soil Biology*.

+Wanderson, N., **Sprunger, C.D.**, de Vasconcelos Gomes, V. Lindsey, A. *Under review*. Water temperature in simulated flooding experiments alter corn N uptake and N dynamics. *Journal of Environmental Quality*.

### *In Revision*

\*Gattoni, K., \*Mann, M., and **Sprunger, C.D.** *In Revision*. Which indicators are most effective at detecting rapid shifts in soil health? *Agricultural and Environmental Letters*.

36. Arceno, MA., Menkoff, M., Kawa, N.C., \*Singh, P., and **Sprunger, C.D.** *Accepted*. Adapting annual and perennial systems to climate change: How Midwestern farmers manage the impacts of extreme weather. *Environmental Research: Food Systems*.
35. <sup>+</sup>Wanderson, N., **Sprunger, C.D.**, \*Mann, M, L. Lindsey, Osler, O, Lindsey, A. 2025. Assessing pre-plant nitrogen sources and waterlogging on corn growth and yield. *Crops, Forage, and Turfgrass Management*. 2025, 11:e70071. <http://dx.doi.org/10.1002/cft2.70071>
34. \*Martin, T.K., Evans, S., **Sprunger, C.D.** 2025. Early successional systems support nematode community resistance to drought stress. *Soil Biology and Biochemistry*, 109919. [doi.org/10.1016/j.soilbio.2025.109919](https://doi.org/10.1016/j.soilbio.2025.109919)
33. Frey, T., Shah, D.A., Lindsey, L.E., **Sprunger, C.D.**, Lopez-Nicora, H., and Benitez Ponce, S.M. 2025. Crop rotation and a rye cover crop have minor impacts on soil health, microbial communities, and soybean yield in Ohio. *Frontiers in Soil Science*, 5. [doi.org/10.3389/fsoil.2025.1535734](https://doi.org/10.3389/fsoil.2025.1535734)
32. Du Preez, G.,<sup>+</sup>Loggenberg, A., Fourie, D., Marcelo-Silva, Joao., \*Martin, T.K., Ramphisa-Nghondzweni, D., Smith, H.J., **Sprunger, C.D.** 2025. Context matters: Divergent outcomes of soil ecosystem status under different conservation agriculture systems. *Journal of Soil Science and Plant Nutrition*. [10.1007/s42729-025-02285-3](https://doi.org/10.1007/s42729-025-02285-3)
31. Nieland, M. Piper, L., Allison, S., Bhatnagar, J., Doroski, D., Frey, S., Greaney, K., Hobbie, S., Kuebbing, S., Lewis, D., McDaniel, M., Perakis, S., Raciti, S., Shaw, A., **Sprunger, C.D.**, Strickland, M., Templer, P., Vietorisz, C., Ward, E., and Keiser, A. 2024. Nitrogen deposition weakens soil carbon control of nitrogen dynamics across the contiguous United States. *Global Change Biology*, 30: e70016. <https://doi.org/10.1111/gcb.70016>
30. Robertson, G.P., Wilke, B., Ulbrich, T., Haddad, N., Hamilton, S., Baas, D., Basso, B., Blesh, J., Boring, T., Campbell, K., Cassida, K., Charles, C., Chen, J.Q., Doll, J.E., Guow, T., Kravchenko, S., Landis, D., Marquart-Pyatt, Singh, M., **Sprunger, C.D.**, Stegink, J. 2024. The Kellogg Biological Station Long-Term Agroecosystem Research Site (KBS LTAR). *Journal of Environmental Quality*. <http://doi.org/10.1002/jeq2.20638>
29. Oldfield, E.E., Lavallee, J., Blesh, J., Bradford, M., Cameron-Harp, M., Cotrufo, F.M., Eagle, A.J., Eash, L., Even, R., Kuebbing, S., Kort, E.A., Lark, T.J., Latka, C., Lin, Y., Machmuller, M.B., O'Neill, B., Raffeld, A.M., RoyChowdhury, T., Rudek, J., Sanderman, J., **Sprunger, C.D.**, Uludere Argon, N., Vidal, M., Woolf, D., Zelikova, T.J., and Gordon, D.R. 2024. Greenhouse gas mitigation on croplands: clarifying the debate on knowns, unknowns, and risks to move forward with effective management interventions. *Carbon Management Journal*. 15, 1, 2365896. <https://doi.org/10.1080/17583004.2024.2365896>.

28. <sup>†</sup>Agyei, B. **Sprunger, C.D.**, Anderson, E. Curell, C., Singh, M. 2024. Farm-level variability in soil biological health indicators in Michigan is dependent on management and soil properties. *Soil Science Society of America Journal*, 88: 326-338. <https://doi.org/10.1002/saj2.20630>

27. \*Singh, P., Kawa, N., **Sprunger, C.D.** 2024. More questions than answers: Ohio farmers perceptions of novel soil health data and their utility for on-farm management. *Agroecology and Sustainable Food Systems*, 48 (1), 74-92. <https://doi.org/10.1080/21683565.2023.2270928>

26. \*Naasko, K. \*Martin, T.K., \*Murray, J. and \*Mann, M, \*Mammana, C., **Sprunger, C.D.** 2024. Soil protein: a key indicator of soil health and nitrogen management. *Soil Science Society of America Journal*. 88, 89-108. <https://doi.org/10.1002/saj2.20600>

- **Featured in CSA News March 2024 Issue:** <https://doi.org/10.1002/csan.21246>

25. **Sprunger, C.D.** and \*Martin, T.K. 2023. An integrated approach to assessing soil biological health. *Advances in Agronomy*. 182, 131-16. <https://doi.org/10.1016/bs.agron.2023.06.003>

24. \*Martin, T.K. and **Sprunger, C.D.** 2023. Nematodes require space: The relationship between nematode community assemblage and soil carbon across varying aggregate fractions. *Geoderma*. 436, 116536. <https://doi.org/10.1016/j.geoderma.2023.116536>

23. **Sprunger, C.D.**, Lindsey, A., \*Lightcap, A. 2023. Above and belowground linkages during extreme moisture excess: Leveraging knowledge from natural ecosystems to better understand implications for row-crop agroecosystems. *Journal of Experimental Botany*, 74 (9). <https://doi.org/10.1093/jxb/erad045>

- Invited paper for special issue on Enhancing the Resilience of Plant Systems to Climate Change
- USDA Funded flooding experiment photo selected for cover

22. <sup>†</sup>Leiva Soto, A. Culman, S.W., Herms, C., C., **Sprunger, C.D.**, Doohan, D. 2023. Managing soil acidity vs. soil Ca:Mg ratio: what is more important for crop productivity? *Crop, Forage, and Turfgrass Management*, 9 (1), e20210. <https://doi.org/10.1002/cft2.20210>

21. \*Martin, T.K. and **Sprunger, C.D.** 2022. Sensitive measures of soil health reveal carbon stability across a management intensity and plant biodiversity gradient. *Frontiers in Soil Science*. 2:7. <https://doi.org/10.3389/fsoil.2022.917885>

- Invited paper for special issue on Soil Health and Security.

20. \*Martin, T. and **Sprunger, C.D.** 2022. Soil food web structure and function in annual row-crop systems: How can nematode communities infer soil health? *Applied Soil Ecology*, 178, 104553. <https://doi.org/10.1016/j.apsoil.2022.104553>

19. Wade, J., Culman, S.W., Gasch, C.K., Lazcano, C., Maltais-Landry, G., Margenot, A. J., \*Martin, T.K., Potter, T. S., Roper, W.R., Ruark, M.D., **Sprunger, C.D.**, Wallenstein, M.D.

2022. Rigorous, empirical, and quantitative: a proposed pipeline for soil health assessment. *Soil Biology and Biochemistry*, 170, 108710. <https://doi.org/10.1016/j.soilbio.2022.108710>

18. \*Martin, T., Culman, S.W., and **Sprunger, C.D.** 2022. Quality or Quantity? Determining the impact of fine root traits on soil health in row-crop agriculture. *Journal of Soil Science and Plant Nutrition*, 22, 2322-2333. <https://doi.org/10.1007/s42729-022-00811-1>

17. \*Martin, T., Wade, J. \*Singh, P., and **Sprunger, C.D.** 2022. The integration of nematode communities into the soil biological health framework by factor analysis. *Ecological Indicators*. 136, 108676. <https://doi.org/10.1016/j.ecolind.2022.108676>

16. \*Martin, T. and **Sprunger, C.D.** 2021. Belowground dynamics influence nitrogen cycling and crop productivity in diversified corn systems. *Frontiers in Sustainable Food Systems*. 5:705577. <https://doi.org/10.3389/fsufs.2021.705577>

- Invited paper for special issue on Ecological Nutrient Management as a Pathway to Zero Hunger.

15. Mestelan, S., Smeck, N., **Sprunger, C.D.**, \*Dyck, A., and Dick, W. 2021. Four decades of continuously applied tillage or no-tillage on soil properties and soil morphology. *Agrosystems, Geosciences, & Environment*, 4(3), e20195. <https://doi.org/10.1002/agg2.20195>

## Competitive Grants

---

### *Pending Grant Proposals:*

Topp, C. et al. **Co-PI: Sprunger, C.D.** N-SYNC: Engineering synchronized nitrogen efficiency traits in corn agriculture. DOE – ARPA-E. \$5,600,000. Subaward to MSU: \$127,318. Submitted October 2024

Franco, A. and **Sprunger, C.D.** Harnessing soil animal diversity to promote multifunctionality and guide soil health management in agroecosystems. USDA NIFA. \$750,000. Submitted September 2024. Ranked High Priority – waiting on funding decision.

*Active grants:*

**Sprunger, C.D.** and Burrack, H. Redefining Sustainable Soil Management: Diversifying Soil Food Webs for Resilient Agroecosystems. Project GREEN. \$94,551. 2025-2026.

**Sprunger, C.D.** A state-wide assessment to better understand soil health and sustainability in potato-based cropping systems in Michigan. Potato Industry Commission. \$48,450. 2025.

T. Donohue. Co-PI: **Sprunger, C.D.** Great Lakes Bioenergy Research Center. Department of Energy, Office of Science. Sprunger manages ~\$150,000 per year as part of a \$125M grant. 2024-2025.

Blesh, J., Asher, A. **Sprunger, C.D.** Understanding the outcomes of improved soil health to accelerate conservation in the Western Lake Erie Basin. MDARD. \$4,013,324. Subaward to MSU: \$1,411,282. 2024-2027.

**Sprunger, C.D.** Robertson, G.P., Basso, B., Charles, C., DeDecker, J., Jean, M., Kravchenko, A.N., Laporte, J., Marquat-Pyatt, S., Sears, M., Singh, M., Ulbrich, T., Wilke, B. 2024-2027. MSU Agricultural Climate Resiliency Program. \$1,249,599.

Haddad, N., Evans, S., and **Sprunger, C.D.** 2024-2027. Diversified cropping systems for biodiversity and ecosystem services. USDA NIFA. \$749,999.71.

Wessel, B. and **Sprunger, C.D.** 2024-2026. Establishing Soil and Plant Nutrient Laboratory data as a research resource. Project Green. \$19,488.45.

**Sprunger, C.D.** Robertson, G.P. and Evans, S. 2023-2026. MSU/Syngenta Soil Health Partnership. Syngenta. \$350,000.

**Sprunger, C.D.**, Shulthies, E., and Docherty, K. 2023-2026. Exploring the efficacy of prairie strips as a soil health promoting practice. North Central SARE. \$119,055.

**Sprunger, C.D.** Expand knowledge of how changes in soil food web dynamics impact overall soil health outcomes by sampling NCSS characterized pedons. 2023-2026. USDA NRCS Soil Survey. \$489,613.

**Sprunger, C.D.**, Haddad, N.K., and McDaniel, M.D. 2023-2025. Building a collaborative program to promote biodiversity and soil health in row-crop agriculture using prairie strip conservation. Doug and Maria Bayer New Initiatives Fund for Sustainable Agriculture 2023. \$49,852.

Haddad, N., Basso, B., Evans, S., Kravchenko, A., Landis, Lau, J., Robertson, G.P. **Sprunger, C.D.**, Zarnetske, P. 2022 – 2028. LTER: KBS – Revealing ecological and social mechanisms of resilience in agroecological systems. NSF LTER. \$7,650,000.

Lindsey, A. and **Sprunger, C.D.** 2021-2026. After the Flood: Impacts on Rhizosphere Biology, Nutrient Cycling, and Corn Growth and Yield. USDA AFRI. \$500,000. Subaward to Michigan State University for years 2022-2026.

*Completed Grants:*

Culman, S.W., **Sprunger, C.D.**, M. Sulc, B. Ward, R. Hayden, J. Jungers, M. Ryan, T. Crews, and L. DeHaan. 2019-2024. Organic dual-use perennial grain crops: Pathways to profitability and soil health. USDA OREI. \$1,776,905.

**Sprunger, C.D.**, Bhowmik, A. 2024. MSU and A&T Exchange: Training and mentorship in nematology to enhance soil health assessments across the Southeastern United States. MSU and NC A&T Research Exchange.

**Sprunger, C.D.**, Cordova, C., Lin, L. 2022-2024. Assessing a suite of indicators to predict soil carbon trajectories in agricultural systems. Environmental Defense Fund. \$298,433.

Lipschitz, F., B. Flemming, S. Inwood, S. Karle, B. Milligan, Z. Plakias, **C.D. Sprunger**, and P. Summerlin. 2019-2020. Identifying opportunities for Landscape Architectural Engagement with Climate Smart Agriculture. InFACT Linkage and Leverage Grant 2019. \$34,613.

Martin, K\*. and **C.D. Sprunger**. 2020-2021. The use of nematodes and enzyme activities for on-farm soil biological health tests. USDA North Central Sustainable Agriculture Research and Education Graduate Student Grant. \$10,875.

**Sprunger, C.D.** 2020-2021. Nematode Quantification in Ohio Soybean Fields. Ohio Soybean Council. \$35,000.

**Sprunger, C.D.**, N.C. Kawa, J.E. Doll, P. Singh. 2020-2021. How can soil health indicators inform farmers' soil conservation practices and climate adaptation strategies? InFACT Linkage and Leverage Grant. \$34,153.

**Sprunger, C.D.** 2019-2021. Rainfall extremes and rhizosphere dynamics: Implications for soil health and crop productivity. OARDC Seeds. \$49,987.

Lindsey, L. E. Hawkins, and **Sprunger, C.D.** 2019-2020. Identifying the cause of soybean self-thinning using Climate FieldView™. Bayer Crop Science. \$68,512.

Baethgaen, W. and **Sprunger, C.D.** 2016. Developing and assessing soil carbon management and restoration recommendations for climate smart agriculture: A pilot study with smallholder farmers in Tanzania. Columbia University, The Earth Institute: Cross-Cutting Initiative. \$30,000.

**Sprunger, C.D.** and G.P. Robertson. 2015. Biodiversity effects on soil carbon gain in annual and perennial cropping systems. USDA Sustainable Agriculture Research and Education Program; 2014-2015. \$6,382.

*Submitted but unsuccessful grant proposals since 2022:*

Zhou, Jizhong et al. **Co-PI: Sprunger, C.D.** Building Foundations: Harnessing Systems Biology of Switchgrass-Microbiome Interactions for Resilient and Sustainable Bioenergy Production. Subaward to MSU: \$1,930,716. Submitted March 2025.

Bronikowski, A., F. Janzen, S. Roy, **Sprunger, C.D.** RaMP: Sustaining biodiversity through integrative Training, Interning, and Mentoring (STIM-bio): A field station and STEM stakeholders working together to grow a diverse workforce. NSF RaMP. \$2,999,999. Submitted January 17, 2024.

Schultheis, E., Haddad, N., and Sprunger, C.D. MiSTRIPS: A collaborative program to improve Michigan agricultural outcomes with prairie conservation plantings. National Fish and Wildlife Foundation-Conservation Partners Program. \$690,666 Submitted. February 26<sup>th</sup>.

Lebeis, S., Curell, C., Gilbert, K., Jean, M., Kirshenbaum, S., Lowry, D., Rhee, S., Singh, M., **Sprunger, C.D.**, Steinke, K. Advancing towards a robust assessment of the effects of biostimulants on soil and plant health. MSU Agricultural Climate Resiliency Program. \$1,250,000. Submitted March 1<sup>st</sup>.

Haddad, N., Charles, C., Evans, S., Marquat-Pyatt, S., Schultheis, E., Sprunger, C.D., Sullivan, L. Diversified cropping systems for biodiversity and climate resilience. MSU Agricultural Climate Resiliency Program. \$1,250,000. Submitted February 28<sup>th</sup>.

Franco, A. and **Sprunger, C.D.** Harnessing soil animal diversity to promote multifunctionality and guide soil health management in agroecosystems. USDA NIFA. \$747,067. Submitted September 12<sup>th</sup>, 2023.

**Sprunger, C.D.**, E. Schultheis. Collaborative Research: Promoting Soil Biodiversity and Ecosystem Function Using Prairie Conservation Corridors. NSF: Partnership to Advance Conservation Science and Practice. \$308,416. Submitted with Western Michigan University and Edward Lowe Foundation. Submitted: Oct. 11, 2022.

Chiavegato, M., N. Bello, S. Lyon, **C. Sprunger**. Effects of grazing and flooding on nitrogen stocks and losses. NC SARE. \$249,984. Submitted March 2022.

**Sprunger, C.D.** Bridging soil biodiversity and soil health through the quantification of nematodes and other dynamic soil properties. Soil Science Collaborative Research. USDA NRCS. \$265,680.35. Submitted April 2022 via Michigan State University.

## **Invited Seminars since 2018**

---

**Sprunger, C.D.** Soil health management for climate resilience and greenhouse gas mitigation. MSU AgBioResearch Stakeholder Annual Meeting. October 2025. Invited Speaker.

**Sprunger, C.D.** Integrating nematodes into the soil health framework. Nematological Society of Southern Africa. Malelane, South Africa. September 2025. Invited Speaker.

**Sprunger, C.D.** Building soil health to sustain life and the environment. University of Missouri Symposium on Soil Health and Human Health. Columbia, MO. August 2025. Keynote Speaker.

**Sprunger, C.D.** Integrating nematodes into the soil health framework in honor of Diana Wall. Ecological Society of America. Baltimore, MD. August 2025. Special Session on Soil Biodiversity in Honor of Diana Wall – Invited Speaker.

**Sprunger, C.D.** How can we build climate resilient soils? Climate Science and Theological Education Project. AAAS funded grant. International Center of Faith, Science, and History. Salisbury, NC. April 2025. Invited Virtual Seminar Speaker.

**Sprunger, C.D.** The long-term maintenance of regenerative agriculture enhances soil health and climate resiliency. Sustainable Agriculture and Food Systems Seminar Series. Michigan State University. March 2025. Invited Seminar Speaker.

**Sprunger, C.D.** What can beneficial nematodes tell us about soil health and soil carbon accrual? March 2025. University of Maine's Climate Adaptation and Mitigation Fellows Program. Webinar. Invited Seminar Speaker.

**Sprunger, C.D.** What can beneficial nematodes tell us about soil health? February 2025. Iowa Learning FAARMS webinar series n=189. Iowa State University Extension. Invited Seminar Speaker.

**Sprunger, C.D.** Can regenerative agriculture solve the dual crises of climate change and biodiversity. February 2025. Department of Biology. Occidental College. Invited Seminar Speaker.

**Sprunger, C.D.** Nematodes as bioindicators of soil health and climate resiliency. November 2024. Department of Entomology and Nematology Seminar Series. U.C. Davis. Invited Seminar Speaker.

**Sprunger, C.D.** Assessing the resilience of soil health indicators in agroecosystems managed over a 30-year period. ASA-CSA-SSSA Annual Meetings. San Antonio, TX. November 2024. Invited Speaker.

**Sprunger, C.D.** The long-term maintenance of regenerative agriculture enhances climate resiliency. MSU-RIKEN Webinar Series. November 2024. Invited Speaker

**Sprunger, C.D.**, Martin, T.K., Wall, D. 2024. The long-term maintenance of regenerative agriculture enhances soil health and climate resiliency. Special session on Agroecology for climate change mitigation and resilience. Ecological Society of America. Long Beach, CA. August 2024. Invited Speaker.

**Sprunger, C.D.** An integrated approach to assessing soil health for enhanced ecological function. O'Neill School of Public and Environmental Affairs Environmental Science Seminar. Indiana University. April 2024. Invited Seminar Speaker.

**Sprunger, C.D.** and Martin, T. What can beneficial nematodes tell us about soil health? MSU Extension Field Crop Webinar Series. February 2024. Attendees, n=118. Invited Webinar.

**Sprunger, C.D.** Soil Health, Nutrient Cycling, and Soil Biology in Reduced Tillage Systems. Organic vegetable production webinar series. University of Wisconsin. 2024 Invited Speaker.

**Sprunger, C.D.** Building a soil food web database to inform soil health in agroecosystems. ASA-CSA-SSSA Annual Meetings. St. Louis, MO. October 2023. Invited Speaker.

**Sprunger, C.D.** Nematodes as bioindicators of climate resiliency in agroecosystems. Diversity in STEM conference. SACNAS. Portland, OR. October 2023. Invited speaker.

**Sprunger, C.D.** 2023. Rhizosphere dynamics drive soil health and ecosystem services in agroecosystems. Department of Plant Biology. Athens, Georgia. October 2023. Invited Seminar Speaker.

**Sprunger, C.D.** 2023. Designing resilient agroecosystems: What is the role of soil health? Danforth Plant Science Center. St. Louis, Missouri. September 2023. Invited Seminar Speaker.

**Sprunger, C.D.** 2023. Promoting soil health management for enhanced agronomic performance and ecological function. School for Environment and Sustainability. Ecosystem Science and Management Seminar Series. University of Michigan. April 2023. Invited Seminar Speaker.

**Sprunger, C.D.** 2023. Advancing soil health assessments for enhanced agronomic performance and ecological function. Department of Environmental Science Seminar Series. University of Toledo. April 2023. Invited Seminar Speaker.

**Sprunger, C.D.** 2023. Baseline assessment of Soil health in Ohio (and our vision for assessments in Michigan). Soil Health Nexus Digital Café. Virtual Seminar. February 2023. Invited Speaker.

**Sprunger, C.D.** 2023. Regenerative Agriculture for new roots and soil health. Seminar. New Roots for Restoration Biology Integration Institute Seminar Series. The Danforth Center. January 2023. Invited Seminar Speaker.

**Sprunger, C.D.** 2022. Linking soil food web structure and function to soil health in agroecosystems. Special Session: The Microbiome of Soil Health. ASA-CSA-SSSA International Annual Meetings. Baltimore. November 2022. Invited Oral Presentation.

**Sprunger, C.D.** 2022. Enhancing soil health: Opportunities for climate mitigation and adaptation in agroecosystems. North Central Climate Collaborative Webinar Series. Invited Speaker.

**Sprunger, C.D.** 2022. The integration of nematode communities into the soil health framework. Department of Biological Sciences Seminar Series. Western Michigan University. Invited Speaker.

**Sprunger, C.D.** 2022. Soil carbon sequestration as a climate solution: Is there a market? Carbon Market Working Group. LTER All Scientist Meeting. Pacific Grove, CA. Invited Speaker.

**Sprunger, C.D.** 2022. Advancing soil health assessments for enhanced agronomic performance and ecological function. Pacific Northwest Laboratory. Environmental, Molecular Sciences Laboratory (EMSL) Exchange. Invited Speaker.

**Sprunger, C.D.** 2022. Lessons from the Rhizosphere: Opportunities for Climate Mitigation and Adaptation in Agroecosystems. University of Missouri Interdisciplinary Plant Group Symposium. Invited Speaker.

**Sprunger, C.D.** 2022. Advancing soil health assessments for enhanced agronomic performance and ecological function. Department of Geography. University of Wisconsin. Invited Speaker for the Yi-Fu Lecture Series.

**Sprunger, C.D.** 2022. Advancing soil health assessments for enhanced agronomic performance and ecological function. Department of Soil, Water, and Climate. University of Minnesota. Invited Speaker.

**Sprunger, C.D.** 2022. Rhizosphere dynamics drive soil health and plant performance in agroecosystems. Soil and Water Sciences Department. University of Florida. Diversity, Equity, & Inclusion Committee Invited Seminar Speaker.

**Sprunger, C.D.** 2022. Soil Biology Scientific Round Table Discussion. Washington State University Soils Conference 2022. Invited Panelist.  
<https://www.youtube.com/watch?v=snVGOXSZAno&list=PLBU9aYUI-eYLLBBu-BxbTNMIYJvXlunh&index=8>

**Sprunger, C.D.** 2021. Advancing soil health assessments for enhanced agronomic performance and ecological function. Kellogg Biological Station and The Department of Plant, Soil, and Microbial Sciences. Michigan State University. Invited Speaker.

**Sprunger, C.D.** 2021. Rhizosphere dynamics drive soil health and plant performance in agroecosystems. Department of Plant Pathology. The Ohio State University. Invited Speaker.

**Sprunger, C.D.** 2021. Carbon Markets. Ask the Expert Panelist. Farm Science Review. The Ohio State University. Invited Panelist.

**Sprunger, C.D.** 2021. Soil Carbon Pools and their connection to soil health. Soil Health Nexus Conference. Michigan State University. Invited Speaker.

**Sprunger, C.D.** 2021. Encourage development of root stocks that increase carbon capture and can support grain crop cover. Agricultural Genome to Phenome Initiative. USDA funded virtual conference. Invited Speaker.

**Sprunger, C.D.** 2021. How do rhizosphere dynamics drive soil health in agroecosystems? Kellogg Biological Station Seminar Series, Michigan State University. Invited Seminar Speaker.

**Sprunger, C.D.** 2021. How do rhizosphere dynamics drive soil health in agroecosystems? Department of Environmental Science, Policy, and Management, University of California, Berkeley. Spring Seminar Series. Invited Seminar Speaker.

**Sprunger, C.D.** 2021. Which management practices most influence soil health in organic corn production? The Ohio State University Organic Webinar Series. Virtual Oral Presentation.

**Sprunger, C.D.** and T. Martin. 2020. Drivers of rhizosphere dynamics and soil biological health in agroecosystems. ASA-CSSA-SSSA International Meetings. Invited oral talk (Virtual).

**Sprunger, C.D.** 2020. How do rhizosphere dynamics drive soil health in agroecosystems? Department of Plant Science Fall Seminar Series, Penn State University. Invited Seminar Speaker.

**Sprunger, C.D.** 2020. Can nematodes serve as effective soil health indicators? Washington State University Soil Health Seminar. Oral Presentation.

**Sprunger, C.D.** 2020. The role that roots play in building soil organic matter and soil health. Association for Ohio Pedologists. February 27, 2020.

**Sprunger, C.D.** 2020. The role that roots play in building soil organic matter and soil health. Conservation Tillage Conference. March 4, 2020.

**Sprunger, C.D.** 2019. How do soils provide important ecosystem services? Invited Speaker. Environmental Professionals Network. Columbus, Ohio. December 4, 2019.

**Sprunger, C.D.** 2019. Perenniality or Diversity: Which is most effective at providing ecosystem services within agro-ecosystems? Ames, IA. Invited Speaker. Department of Agronomy seminar series, Iowa State University.

**Sprunger, C.D.** 2019. Embracing Difficult Conversations: The necessary path to diversifying soil science. Amherst, MA. Bridge Scholar/Invited Speaker. Stockbridge School of Agriculture Seminar Series: Bridge2Impacts, University of Massachusetts.

**Sprunger, C.D.** 2019. Perenniality or Diversity: Which is most effective at providing ecosystem services within agro-ecosystems? Amherst, MA. Bridge Scholar/Invited Speaker. Stockbridge School of Agriculture Seminar Series: Bridge2Science, University of Massachusetts.

**Sprunger, C.D.** 2019. Perenniality or Diversity: Which is most effective at providing ecosystem services within agro-ecosystems? Columbus, OH. Invited Speaker. Department of Horticulture and Crop Seminar Series, The Ohio State University.

**Sprunger, C.D.** 2019. What management practices most influence soil health in corn production? Conservation Tillage and Technology Conference. Ada, OH. Invited Speaker.

**Sprunger, C.D.** 2019. Sustainable Agriculture: Can we increase crop productivity while reducing agriculture's environmental footprint? Department of Biology Seminar Series, College of Wooster. Wooster, OH. Invited Seminar Speaker.

**Sprunger, C.D.** and S. W. Culman. 2019. On-farm evaluation of crop diversity effects on soil health and ecosystem function in the Great Lakes Region. Special Session. Soil Science Society of America International Annual Meetings. San Diego, CA. Invited Oral Presentation.

**Sprunger, C.D.** 2018. Root production and soil carbon dynamics in agroecosystems. Microbial Based Solutions for Agriculture. The Ohio State University. Wooster, OH. Invited Oral Presentation.

**Sprunger, C.D.** 2018. Root production and soil carbon dynamics in agroecosystems: A biogeochemical and social science approach. School of the Environment and Natural Resources, The Ohio State University. Invited Oral Presentation.

## **Presentations since 2022**

---

\*Gattoni, K. \*Drobnak, R., and **Sprunger, C.D.** Nematode community dynamics in and around prairie strips indicate increased soil health. CANVAS 2025. Salt Lake City, UT. Oral Presentation.

\*Naasko, K. +de Camargo Santos, A., **Sprunger, C.D.** and Deiss, L. Tillage Intensity and Crop Rotation Impact Organic Carbon Storage and Aggregation at Different Depths. CANVAS 2025. Salt Lake City, UT. Oral Presentation.

\*Drobnak, R. and **Sprunger, C.D.** Does Plant Species Richness Matter for Belowground Biodiversity and Soil Health in Edge of Field Conservation Practices? CANVAS 2025 (Formerly ASA-CSA-SSSA International Annual Meetings). Salt Lake City, UT. Oral and Poster Presentation.

\*Martin, T.K. and **Sprunger, C.D.** How do bacterivore nematodes enhance plant available nitrogen in organically managed soil? Ecological Society of America. Long Beach, CA. August 2024.

Durso, L.M, Cater, T., Obour, AK., **C.D. Sprunger** and others. ASA. CSSA. SSSA Diversity, Equity, and Inclusion Committee Showcase Poster. ASA-CSA-SSSA International Annual Meetings. November 2022. Poster Presentation.

<sup>+</sup>Wanderson, N. **C.D. Sprunger**, L.E. Lindsey, S. Khanal, O. Ortezt, M. Mann\*, and A.J. Lindsey. Assessing various N sources and water excess on corn growth and grain yield. ASA-CSA-SSSA International Annual Meetings. November 2022. Oral Presentation.

<sup>+</sup>Wanderson, N. **C.D. Sprunger**, L.E. Lindsey, S. Khanal, O. Ortezt, M. Mann\*, and A.J. Lindsey. Elucidating how N management practices and excess water conditions affect corn N uptake and grain yield. ASA-CSA-SSSA International Annual Meetings. November 2022. Poster Presentation.

Martin, T. and **C.D. Sprunger**. Thirty-years of long-term management shifts nematode community composition across a suite of cropping systems. ASA-CSA-SSSA International Annual Meetings. November 2022. Oral Presentation.

Martin, T. and **C.D. Sprunger**. Assessment of soil food webs across time: How do nematodes infer shifts in community structure over 30 years under varying agroecosystems? Ecological Society of America. August 2022. Oral Presentation.

## **Fellowships and Honors**

National Science Foundation Post-Doctoral Fellowship in Biology, \$138,000	2016-2017
ASA, CSSA, SSSA Graduate Student Leadership Award	2014
Kellogg Biological Station Graduate Research Fellowship, \$1000	2014
ASA, CSSA, SSSA Future Leaders in Science Award, Washington D.C.	2014
National Ford Foundation Fellowship, \$66,000	2012-2014
Michigan State University Enrichment Fellowship, \$48,000	2010, 2015
Soil Science Society of America Meeting, Cincinnati, OH, Student Poster Award	2012
Michigan Organic Reporting Session, Graduate Student Poster Award	2013
National Science Foundation Graduate Research Fellowship, Honorable mention	2012
Kellogg Biological Station, Summer Student Fellowship, \$1000	2011

Michigan Organic Reporting Session, Graduate Student Poster Award 2011

Undergraduate Travel Award, Forest Resources, University of Washington, \$400 2009

## **Teaching, Advising, and Mentoring**

---

### Teaching

**Instructor**, Michigan State University, *Sci. Comm; Professional Devel.* 2024- Present

**Instructor**, Michigan State University, *Soil Health Concepts and Methodology* 2023-Present

**Instructor**, The Ohio State University, *Root and Rhizosphere Ecology* 2019-2022

**Instructor**, The Ohio State University, *Advanced Principles in Enviro Sci* 2021-2022

**Co-Instructor**, The Ohio State University, ENR 8890.04 2020-2022

### Post-doctoral Researchers

**Current:** Katherine Naasko (2023-Present); Kaitlin Gattoni (2025- Present); Sandip Mondal (2025-Present); Rebecca Nelson, EEB Presidential Post-doc (2025-Present; co-mentor with Haddad and Evans)

**Former:** Alexandria Smychovich (2023-2024)

### Graduate Student Chair

**Current:** Isabella Vergara (PhD, CSS); Rachel Drobnack (PhD, CSS); Monica Jean (PhD, CSS); Christoff van Wyk (MS, North – West University, South Africa – co-advised).

**Completed:** Tvisha Martin (MS, ENR, 2021), Prabhjot Singh (MS, ESGP, 2021); Tvisha Martin (PhD, CSS, 2025).

### Graduate Student Committee Member

**Current MS students:** Jasmine Bontrager (MSU, PSM); Brandon Scott (MSU, PSM); Blair Van Agen (MSU, PSM)

**Completed MS students:** Ashly Dyck (SENR), Christine Charles (SENR), Francis Clark (HCS), Ana Vazquez (Plant Pathology), Jenna Moore (HCS), Chee Gang Ngui (HCS); Sarah Munezero (MSU, PSM); Sara Sadeghi (MSU, PSM)

**Current PhD students:** Marissa Zaricor (MSU, Plant Biology), Ojo Paul (MSU, Community Sustainability and PSM); Stephen Stresow (MSU, HORT); Zahid Chowdhury (MSU, Forestry); Aadil Rahman (MSU, PSM).

**Completed PhD students:** Andrea Leiva Soto (OSU, HCS); Sean Fenstemaker (OSU, HCS); Wanderson Novais (OSU, HCS); Prabhjot Singh (OSU, SENR); Benjamin Kwadwo Agyei (MSU, PSM).

#### Post-Bachelor Technicians

- Meredith Mann (2019 – Present)
- Lisa Hargest (2024- Present)
- Arlo Robles (2024- Present)
- Morgan Filhart (2024-Present)
- Hailey Hilsher (2024- Present)
- Aerin Braunholer (2025- Present)
- Emily Parker (2022 – 2024)
- Hanna Korn (2022- 2024)
- Louceline Fleuridor (2019)
- Nicole Hoekstra (2018-2019)

#### Undergraduate Research Assistants and Undergraduate Research Distinction

- Jacob Murray (Spring 2021-Fall 2023)
- Allison Bunce (Summer 2022)
- Ainsley Lightcap (Spring 2021-Summer 2022)
- Abby Rees (NSF REU 2022)
- Dani Alabyadh (Fall 2020-2021)
- Christian Mamana (NSF REU 2021)
- Ben Bridge (KBS URA 2023)
- Elena Zakolski (NSF REU 2023)
- Aiden Martin (Spring 2024)
- Andrew Wade (KBS URA 2024)
- Cherith Pickett (KBS REU 2025)
- Francesca Gervase (KBS REU 2025)
- Michael Ankley (Kalamazoo College Honors student, 2025)

#### Faculty Mentoring Committees at Michigan State University

- Olivia Smith, Department of Horticulture (Fall 2024 – Present)

### **Service**

---

#### **Ecological Society of America**

- Soil Ecology Section – Secretary
- 2025- Present

#### **Michigan Department of Agriculture and Rural Development**

- Soil Health Task Force
- 2024 – Present

#### **Michigan State University**

- KBS Faculty Advisory Committee
- 2024-2027

#### **Michigan State University**

- Sustainable Agriculture and Food Systems Steering Committee
- 2024-2027

#### **Michigan State University**

- PSM/KBS Agroecology Search Committee
- October 2023-May 2024

#### **Michigan State University**

- Plant Resilience Institute Faculty Search Committee
- Multiple position search
- September 2023- 2024

#### **USDA NIFA**

- Peer Review Panel Member
- Agricultural Microbiomes in Plant Systems and Natural Resources
- December 2022 – January 2023

#### **Michigan State University**

- Agronomy Committee (Chair, 2025 - Present)
- November 2022- Present

#### **Michigan State University**

- Regenerative Agriculture Extension Educator Search Committee Member
- October 2022- February 2023.

#### **Michigan State University**

- Long-Term Agroecosystems Research (LTAR) Steering Committee
- August 2022-Present

#### **Michigan State University**

- KBS Cultural & Inclusion Committee
- August 2022- December 2023

#### **USDA NCR-SARE**

- Peer Review Panelist
- Graduate Student Research Grant Program
- 2021-2022

#### **Soil Science Society of America Outstanding Dissertation Committee**

- January 2020-2024

#### **Agronomy, Crops, and Soils Diversity Society Committee**

- January 2020-2024

## **Soil Science Society of America Science Policy Committee**

- January 2020- December 31, 2022

**Peer Reviewer:** PNAS, Biogeochemistry, Agriculture, Ecosystems, and the Environment, Plant and Soil, Soil Science Society of America, Geoderma, Agronomy Journal, Applied Ecology, Applied Soil Ecology, Nutrient Cycling in Agroecosystems, Global Change Biology, Journal of Animal Ecology, Ecology and Evolution, Forest Ecology and Management

## **Advisory Board Service**

- New Roots for Restoration Biology Integration Institute (External Advisory Board/Executive Committee member), 2025 – Present

## **Editorial Board Service**

- Pedobiologia, Editorial Board, 2022- Present
- Plant and Soil, Section Editor, 2024 – Present
- Biogeochemistry, Guest Editor, 2024-2025

## **Professional Development Training**

---

DEI Foundations: Building Leadership Engagement Strategy – Association for Women in Science	2024
ADVANCEGeo Partnership Training, Kellogg Biological Station	2023
Teaching Assistant Seminar and Orientation, Michigan State University	2013
Science policy, Communication, and Advocacy training, ASA, CSSA, SSSA	2014
Mentoring workshop, W.K. Kellogg Biological Station	2013

## **Professional Memberships**

---

Ecological Society of America, Soil Science Society of America, Crop and Soil Science Society of America, and Agronomy Society of America, Association for Women Soil Scientists, Graduate Women in Science, Xi Sigma Pi Honor Society.

## **Outreach, Public Engagement, DEIJ Efforts**

---

Participated in the Trans and Gender Non-conforming Field Alliance training. March 24<sup>th</sup>, 2025.

Participated in the Association for women in Science – DEI Foundations: Building your leadership engagement strategy. June 2024.

Generated soil health test reports for farmers in the Midwest and Northeast (2019-present) 500+.

**Sprunger, C.D.** Advancing soil health to inform soil carbon dynamics and biodiversity. Symposium: Research, Extension, and Programming Highlights of NCA&T and MSU. April 26, 2023.

**Sprunger, C.D.** Round Table Discussion: Preparing for oral defense workshop. Women of Color Initiatives. Michigan State University. February 2023. Invited Panelist.

**Sprunger, C.D.** 2023. A holistic approach to assessing soil health. Open Access Government. January 2023. <https://doi.org/10.56367/OAG-037-1040>.

**Sprunger, C.D.** 2022. In the Weeds: All there is to know about organic matter! Michigan Field Crops Team. Podcast.

**Sprunger, C.D.** 2022. Deteriorating soil health: ‘A teaspoon of soil contains more life than there are humans on earth’. Open Access Government. October 2022. <https://doi.org/10.56367/OAG-036-10403>

**Sprunger, C.D.** 2022. The simple act of welcoming. Planting seeds and storytelling (DEIJ) Working Group. LTER All Scientists Meeting. Pacific Grove, CA. September, 2022.

**Sprunger, C.D.** 2022. Biodiversity! Smithsonian Science Education Center. [Science for Global Goals](#).

Scientia Feature: Tackling Soil Health from Every Angle. March 2022  
<https://doi.org/10.33548/SCIENTIA803>

Judge for Agronomy, Crops, and Soils Student Diversity Poster Competition. ASA-CSA-SSSA. Virtual Annual Meetings. November 2020.

Leaders of Color Career Panel: Young Professionals in the Environmental Space. River Network. October 7, 2020.

European Geosciences Union. Black in Soil Science Feature. Blog Post. 2020.  
<https://blogs.egu.eu/divisions/sss/2020/07/06/black-in-soil-science/>

Soil health in the No-till trial presentation to legislative staffers. CFAES. August 23, 2019.

Designed hands on soil science activities for 5<sup>th</sup> and 6<sup>th</sup> grade students as part of the Expanding Your Horizons Girl’s Science Day. College of Wooster. April 6<sup>th</sup>, 2019.

Lin, E., **C.D. Sprunger**, N. T. Basta. Report on Heavy Metal Contamination from UXO and Landmine Areas in Cambodia. Cambodian government. April 2019.

**Sprunger, C.D.** 2019. Feature Interview. Women in Ag Science Organization. April 2, 2019.  
<https://www.womeninagscience.org/post/christine-sprunger-soil-science-assistant-professor>.
